

Dear Students,

Due to ongoing pandemic conditions in the world, as you all know we needed to quickly adapt to online education in the Spring of 2020. As the Faculty of Architecture, we were challenged to consider alternative methods of teaching and learning during this process. Following the decision of YÖK, the fall semester of 2020-2021 academic year, is planned to minimize the face-to-face interaction and communication to protect physical distance for our health.

We prepare this student handbook to guide you throughout the process of distant learning. Please carefully read the material presented in this student handbook. The student handbook was designed to provide you with information and guidance specific to distance learning including:

- Tips for online education
- Online Communication
- Camera and microphone settings
- Tips for your online submissions

Wishing everyone healthy days ahead.
