

**ERASMUS 2015-2016 SPRING SEMESTER**  
**Instituto Politécnico de Castelo Branco| Portugal**  
**Işinsu Dikmen**

I studied the spring semester of the 3rd year with the Erasmus Exchange Program in Castelo Branco. Not only you have a chance to discover yourself and take a step towards your individual life in your city, but also you get the opportunity to meet many people from different cultures while traveling comfortably in Europe. It is a great experience to create your own life at such a young age. I would recommend this experience to anyone who is considering studying with the Erasmus Exchange Programme.
