

ERASMUS 2022-2023 SUMMER SEMESTER

Yaşar University | Türkiye

Ali Barış TOPÇUOĞLU

Hello, my name is Barış. I am a third-year student in the Department of Interior Architecture and Environmental Design at Yaşar University. As part of the Erasmus+ BIP Summer School project, I participated in the 'RITM' program held in İzmir/Şirince, which included students from different countries. Throughout a week, we engaged in team collaboration to develop various ideas for our project.

In mixed teams formed with students from different countries, we analyzed the project, created visualizations and drawings, and prepared presentations. During this process, we learned about each other's cultures, developed different working techniques, and most importantly, built strong friendships. Even after the project concluded, the effects of the event still linger among us students. We have maintained our communication, and I believe that this is the most significant gain from this activity.

It was one of the most wonderful experiences of my life, and I'm glad I participated. If given the chance again, I would join without hesitation.
